

Request for Proposal

Praja is a non-partisan organisation working towards enabling accountable governance in Mumbai. To know more about our work and goals, please visit www.praja.org.

Praja is launching Urban Governance Index for ranking the States in India on governance structure. The index will rank each of the State on the basis of a minutely researched matrix, which takes into consideration every aspect of the structure. Each state is responsible for devolving powers to the municipal corporations and strengthening local governance in their respective states. We believe that this initiative will have far reaching consequences. For one, it will incentivise Sates to ensure democratic empowerment and democracy at grass root level.

To this end we are inviting proposals for a contract to design and print our Urban Governance Index Report. We will provide the proofread text (English), content for info graphs and data tables for it.
